## Item description

The PFC200 Controller is a compact PLC for the modular WAGO I/O System. Besides network and fieldbus interfaces, the controller supports all digital, analog and specialty modules found within the 750/753 Series.

Two ETHERNET interfaces and an integrated switch enable line topology wiring.

An integrated Webserver provides user configuration options, while displaying PFC200 status information.

Besides the processing industry and building automation, typical applications for the PFC200 include standard machinery and equipment control (e.g., packaging, bottling and manufacturing systems, as well as textile, metal and wood processing machines).

## Advantages:

- Programming per IEC 61131-3
  - Programmable via CODESYS 3.5 with FW23 and above
  - Programmable via WAGO-I/O-PRO V2.3 or *e!COCKPIT* with FW22
  - Direct connection of WAGO's I/O modules

Subject to changes. Please also observe the further product documentation!

We are always happy to take your call at +49 (571) 887-44222.

- 2 x ETHERNET (configurable), RS-232/485
- Linux operating system with RT-Preempt patch
- Configuration via CODESYS, *e!COCKPIT* or Web-Based Management interface
- Maintenance-free

## Connection data

|   |  |
|---|--|
| Connection technology: communication/fieldbus | Modbus (TCP, UDP): 2 x RJ-45; Modbus® RTU: 1 x D-sub 9 socket; RS-232 serial interface: 1 x D-sub 9 socket; RS-485 interface: 1 x D-sub 9 socket |
| Connection technology: system supply          | 2 x CAGE CLAMP®  |
| Connection technology: field supply           | 6 x CAGE CLAMP®  |
| Connection type 1                             | System/field supply  |
| Solid conductor                               | 0.08 ... 2.5 mm² / 28 ... 14 AWG   |
| Fine-stranded conductor                       | 0.08 ... 2.5 mm² / 28 ... 14 AWG   |
| Strip length                                  | 8 ... 9 mm / 0.31 ... 0.35 inches  |
| Connection technology: device configuration   | 1 x Male connector; 4-pole   |

## Physical data

|                                   |                        |
|-----------------------------------|------------------------|
| Width                             | 78.6 mm / 3.094 inches |
| Height                            | 100 mm / 3.937 inches  |
| Depth                             | 71.9 mm / 2.831 inches |
| Depth from upper-edge of DIN-rail | 64.7 mm / 2.547 inches |

## Mechanical Data

|                    |                              |
|--------------------|------------------------------|
| Weight             | 214.8 g                      |
| Color              | light gray                   |
| Housing material   | Polycarbonate; polyamide 6.6 |
| Conformity marking | CE                           |

## Environmental requirements

|  |   |
|--|---|
| Ambient temperature (operation)          | 0 ... +55 °C  |
| Ambient temperature (storage)            | -25 ... +85 °C  |
| Protection type                          | IP20  |
| Pollution degree                         | 2 per IEC 61131-2   |
| Operating altitude                       | without temperature derating: 0 ... 2000 m; with temperature derating: 2000 ... 5000 m (0.5 K/100 m); 5000 m (max.) |
| Relative humidity (without condensation) | 95 %  |
| Mounting position                        | any   |
| Mounting type                            | DIN-35 rail   |

|---|------------------------|---------------|--------------------------|

WAGO Visualization Datalogger is a Web application that can be used as a visualization tool for the recorded data of the datalogger library (WAGOAppDatalogger).

WAGO Visualization Datalogger does not replace the datalogger but is rather a supplementary function. It is an HTML/Javascript application available via the Webserver on the controller. The user launches the Web application in a browser.

## HART Tool Routing via ETHERNET with 750-820x and e!RUNTIME (a116130)

1.0.0

pdf

Download

This application note describes how to set up asset management systems, which facilitate simple, efficient configuration of HART field devices.

2019 Mar 22

2.9 MB

With the Cerabar PMC51 (Endress+Hauser) as an example, a connection is established from any HART sensor to a WAGO PROFIBUS Controller and a WAGO ETHERNET fieldbus coupler. The configuration is made with the asset management software WAGOframe, PACTware und FieldCare.

## Libraries

## Library

## WAGO\_Datalogger\_02.lib

2.7

2020 May 20

zip

678.8 kB

Download

The FbDatalogger function block logs entries from up to 80 channels at an interval of min. one second in a CSV file.

## ModuleAccess\_01.lib

1.8.7

2020 Jan 27

zip

2.2 MB

Download

The ModuleAccess\_01 library provides both module configuration and access to its process data within a CoDeSys project without the use of WAGO I/O Check.

## Library WagoLibCloud\_02.lib

2.2.4

2020 Jan 21

zip

57.6 kB

Download

Die Bibliothek dient zur Kommunikation des WAGO Controller PFC100 und PFC200 mit Cloud Diensten wie Microsoft Azure (WAGO Cloud), Amazon AWS und IBM Bluemix. Daten können zur Cloud gesendet und Kommandos von der Cloud empfangen werden.

## WagoConfigToolLIB

1.0.0

2013 Oct 8

pdf

349.1 kB

Download

The library WagoConfigToolLIB.lib library provides function blocks for accessing the device configuration (e.g., network settings, data and time, ongoing services).

## WagoLibCpuUsage

1.0.0

pdf

265.7 kB

Download

This library enables you to determine the CPU load (usage).

## WagoLibDiagnosticIDs

1.0.0

pdf

298.2 kB

Download

This library is used to take part in an internal diagnostics protocol via an IEC-61131 application. You can define your own IDs and provide your own texts for this. You can also transmit your own diagnostics IDs. Diagnostics generated in this manner are saved in the system log and displayed in text form, for example, in the WBM.

| WAGO Solution Builder  | <a href="#">URL</a> | <a href="#">Download</a> |
| WAGO Solution Builder is a software solution that enables holistic and efficient building automation project engineering and can be used throughout the entire building life cycle. With WAGO Solution Builder, you can organize all of your own building automation projects on a web interface and, thanks to integrated device management, ensure that your project-specific WAGO controllers are always updated. |                     |                          |

Once downloaded, the software can be used for free during the launch phase until October 2023. After that, you can activate WAGO Solution Builder by purchasing a license key.

### Desktop Application

|  |                     |                          |
|--|---------------------|--------------------------|
| WAGUpload  | <a href="#">URL</a> | <a href="#">Download</a> |
| WAGUpload is a stand-alone PC software for transferring, backing up and restoring PLC applications on WAGO 750 Series controllers. |                     |                          |

### CODESYS V3 with WAGO DSP

|  |                     |                          |
|--|---------------------|--------------------------|
| CODESYS Development System V3 including WAGO Device Support Package  | <a href="#">URL</a> | <a href="#">Download</a> |
| Have you not yet installed CODESYS Development System V3? Would you like to program WAGO controllers? Then you've come to the right place! |                     |                          |

Subject to changes. Please also observe the further product documentation!

With CODESYS Development System V3, you program according to the IEC 61131-3 standard. The software enables graphical and textual programming. Create visualizations with the integrated visualization editor.

You benefit from several WAGO libraries that support your application.

You can find it in our WAGO Download Center:

- CODESYS V3.5.x, 64-bit
- WAGO-Plugins
- WAGO libraries
- Device firmware
- Device description for WAGO controllers
- ...as well as other WAGO tools and add-ons

---

### WAGO DSP for CODESYS V3

WAGO Device Support Package for CODESYS Development System V3

[URL](#)

[Download](#)

Have you already installed CODESYS Development System V3 (min. V3.5.17.3) and only need WAGO libraries and device descriptions for the WAGO controllers? Then you've come to the right place!

Use your CODESYS Development System V3 and expand it with the device descriptions of the WAGO controllers and several WAGO libraries.

You can find it in our WAGO Download Center:

- WAGO-Plugins
- WAGO libraries
- Device firmware
- Device descriptions for WAGO controllers
- ...sowie weitere WAGO-Tools und Add-ons

---

### Runtime Software

#### GitHub: Linux® Toolchain

GitHub: Linux® Software Development Kit (SDK)

[URL](#)

[Download](#)

With the PFC SDK, WAGO offers Linux® enthusiasts the opportunity to compile the PFC firmware themselves, and to expand it according to their own wishes.

The WAGO PFC SDK includes a Pengutronix build environment, optimized for the PFC, and the OSELAS Toolchain, which open up the following possibilities, among others:

- Expanding the firmware functions using open source packages like: Python, SQLite3, PHP, etc.
- Compiling their own C/C++ applications with direct or indirect bus access to the local bus, CANopen, or PROFIBUS.

—  
Subject to changes. Please also observe the further product documentation!

- Compiling external libraries using CODESYS V2 to expand the PLC applications.
- There are detailed instructions for many of these tasks and ideas (see WAGO GitHub HowTo's).

## Software Solutions (Applications)

### Energy data management

|  |                      |                 |                          |
|--|----------------------|-----------------|--------------------------|
| Energy Data Management Application   | 2.4.1<br>2023 May 23 | zip<br>596.0 MB | <a href="#">Download</a> |
| With our energy data management, EDM, solution, you can record and visualize your measurement data of different media and parameters in no time. Continuous collection and monitoring provide the basis for the resource-efficient energy usage – the environment will thank you and your operating costs will be minimized. And by the way, the normative conformity according to DIN EN 50001 for the energetic evaluation is part of the package. |                      |                 |                          |

### Application-Based Controller Redundancy

|   |                          |                 |                          |
|---|--------------------------|-----------------|--------------------------|
| Application-Based Controller Redundancy<br>Increase availability in central ship alarm systems with WAGO's Application-Based Controller Redundancy (ACR). | 2023-05-02<br>2023 May 2 | zip<br>816.5 MB | <a href="#">Download</a> |
|---|--------------------------|-----------------|--------------------------|

The licensed software library (2759-0245/0211-1000) and an *e!COCKPIT* redundancy framework (LINK) allows you to easily program and operate redundant master PLCs in single point of failure (SPOF) tolerant systems.

A large number of the available 750 Series I/O Modules can be integrated into the system via Smart Couplers. These decentralized PLCs automatically recognize the input and output modules, which makes commissioning easy. The redundant communication of the two Master PLCs and the Smart Couplers is performed either via two separate networks (Dual-LAN) or a ring topology.

These Master PLCs (2nd generation PFC200) communicate with higher-level SCADA systems, for example, via the Modbus TCP protocol.

The application notes (a2020003 and a2020004) describe the practical use of the library and define the application area and the maximum number of participants within the system.

### Weather-Station

Subject to changes. Please also observe the further product documentation!

## Weather Station Application

2.3.0  
2023 Feb 6ZIP  
150.0 MB[Download](#)

WAGO Weather Station makes all the relevant sensor data, such as temperature, precipitation, wind speed and light intensity, available for further processing and display in a visualization or a management system. Weather sensors from different manufacturers can be recorded on digital inputs and analog inputs and via RS-485.

It provides central functions like weather protection, automated glare protection and timer programs. The slat tracking based on the position of the sun ensures that the maximum amount of daylight is allowed into rooms while avoiding glare.

Shading correction also optimizes the supply of sunlight. It takes the shading caused by surrounding buildings into account according to an existing shading analysis for the specific property.

## Lighting management

## Lighting Management Application

2.1.2  
2023 Jan 12zip  
126.8 MB[Download](#)

WAGO Lighting Management is a highly sophisticated solution for lighting control in large spaces such as production facilities and warehouses. Using a combination of predefined hardware and user-friendly software, WAGO offers a lighting management system that facilitates the design and commissioning of new lighting systems while providing numerous additional advantages for their operation.

This download always provides you with the latest version of WAGO Lighting Management that we strongly recommend for new installations. When upgrading existing installations that use older versions (V1.x), we recommend that you keep using V1.2. If you have any questions, please contact WAGO Support.

## WAGO Application Grid Gateway

## WAGO Application Grid Gateway

1.0.1  
2021 Jun 1zip  
512.2 MB[Download](#)

WAGO Application Grid Gateway supports power distribution grid operators in assessing grid performance. This application allows grid operators to use their existing distribution grid more efficiently, while avoiding unnecessary grid expansion. The measurement technology required in the substations for both the transformer and low-voltage outputs can be easily retrofitted.

The application can be used for a 30-day trial period at no cost, after which a license for the specific controller is required. The license can be separately purchased under Item Number 2759-2015/0261-1000.

## Building Control

## Application Building Control

1.1.2  
2022 Dec 9zip  
130.1 MB[Download](#)

WAGO's Building Control application is a pre-programmed software solution for building automation applications.

Its main functions include HVAC control, lighting control and comprehensive energy data management; however, it also allows implementation of arbitrary control loops or logical functions. Its high degree of flexibility and scalability allow it to adapt to different demands. Commissioning is performed through a configuration interface, following the design principle of "configuration instead of programming." A Web-based visualization for display and operation of systems is also available. It is also possible to connect to cloud systems for access to the data from anywhere in the world..

## Room Automation

Application *flexROOM*<sup>®</sup>3.5.0  
2023 Apr 20zip  
115.5 MB[Download](#)

Subject to changes. Please also observe the further product documentation!

**flexROOM®** is our scalable room automation solution and is especially appropriate for medium-sized and large office and administrative buildings – whether for new construction or modernizing energy systems.

All the relevant room functions of the building systems for lighting, sun protection and room climate control are covered. Thus **flexROOM®** provides the basis for achieving energy efficiency class A per EN 15232 and supports the certification of your building as a sustainable green building, e.g., per national and international system like DGNB or LEED.
