Immediate Product Discontinuation Notice:

3M™ Speedglas™ 9000/9000 HWR/FlexView Accessories and 3M™ Speedglas™ Clearvisor Accessories

Dear Valued Customer:

As part of 3M’s ongoing efforts to simplify our product lines and focus on products that can provide additional value and benefits, we are discontinuing many low volume accessories from our 3M™ Speedglas™ 9000/9000 HWR/FlexView Series as well as several 3M™ Speedglas™ Clearvisor Accessories. This is one of the final phases of the 9000 Series discontinuation as we discontinued 9000/9000 HWR Series full helmet assemblies in late 2013. The 3M™ Speedglas™ Welding Helmet 9100 Series & 9002NC are the suggested replacement helmets for you to consider. These suggested replacements offer increased balance and stability, excellent optics, and many improvements compared with the 9000 Series.

This discontinuation will take effect immediately. While these products are still currently available, orders received after discontinuation will be fulfilled only if there is remaining inventory on hand. While each product will vary in future availability, we estimate many of the products being discontinued will become obsoleted throughout Q1 of 2019. Please see the final list of discontinued products and their corresponding suggested replacements below.

Discontinued 9000/9000 HWR Series Accessories Products:

Prod Nbr	3M ID	Item Desc
02-0024-00	70071272697	3M™ Speedglas™ Sweatband, 1 EA/Case
